

Guest Speaker Invitation – Sharing the Planet

Dear Parents,

As we explore our current Unit of Inquiry, Sharing the Planet, we warmly invite you to enrich our classroom learning by volunteering as guest speakers.

If you have knowledge, experience, or a professional background related to topics such as sustainability, conservation, environmental awareness, biodiversity, habitats, adaptation, animal welfare, or responsible resource use, we would love for you to share your insights with our young learners. Your real-world perspectives can help learners make meaningful connections and deepen their understanding of how we share our planet with others.

We also welcome suggestions or referrals for other experts who could contribute to this learning journey. Please reach out to your HRT's for any suggestions.

Thank you for supporting our classroom community and inspiring our learners to become caring, responsible global citizens.

Thanking you,

Ms. Farida Bhopalwala

Year leader Grade 3.
